## A THOUGHT FOR TODAY.

Unless you bear with the faults of a friend you betray your own.—Syms

## CONTROLLED NEWSPAPERS.

The Atchison Globe says that no advertiser has ever tried to control its editorial policy, the remark being occasioned by the charge often made nowadays that the big advertisers direct the editorial policy of news- papers.

The experience of the Globe is the experience of most newspapers. The merchant who does a great deal of ad- vertising is more interested in the circulation department of a newspaper than in the editorial department. If a daily paper goes to the homes of the people, and is read by them, he is satisfied, and it may chase after any theory or fad, for all he cares. He has troubles of his own, and he isn't trying to shoulder those of the edi- torial brethren.

There are newspapers controlled by people outside of the editorial rooms, and a good many of them, more's the pity; but the people ex- ercising that control are not the busi- ness men who pay their money for ad- vertising space. The newspapers which are established for political purposes are often controlled by chronic office-seekers, whose first con- cern is their own interests. There are newspapers controlled by great corpo- rations, and the voice of such news- papers is always raised in protest against any genuine reform.

The average western newspaper usually is controlled by its owner, and he is supposed to be in duty bound to make all sorts of sacrifices at all sorts of times; there are peo- ple who consider it his duty to insult his advertisers, just to show he is free and independent. If he shows a decent respect for his patrons, who pay him their money, and make it pos- sible for him to carry on his business, he is "subsidized" or "controlled." The newspaper owner is a business man, like the dry goods man or the grocer. The merchants are expected to have consideration for their cus- tomers, and they are not supposed to be subsidized by the man who spends five dollars with them, but the pub-

# WOMEN NOW IN THE PUBLIC EYE

Three Who Have Come to the Fore as Aviators --- England's Champion Woman Buttermaker. Two Female Westons.

THREE women have come to the fore as regards aviation in England, France and Amer- ica.

The most daring of these is the Frenchwoman Baroness de la Roche, who ran a biplane four miles over a circular course.

Dorothy Levitt, the English girl, both owns and has invented an aeroplane. She was a pupil first of Latham and then of Farman. She tried the mono- plane with the former, but found it difficult for a woman to manage. She made rapid progress under the guid- ance of Farman and recently spoke as follows:

"My experience is that a biplane is better for learning, as the whole con- trol of it is so much simpler than that of the monoplane. I made good progress under M. Farman's guidance. I ascended three or four times with him, and on the last occasion he was mere- ly the passenger, while I had charge of the levers and controlled the move- ments of the biplane.

"I expect to fly at one or two Eng- lish meetings if everything goes well." A California woman, Mrs. R. H. Van Deman, was the first woman in this country to operate an aeroplane. She did so under the direction of Wilbur Wright. Mrs. H. A. Arnold, a Florida woman, has recently bought a large biplane and intends operating it her- self.

## A Circus New Woman.

The expression "a woman who makes a fool of herself" will soon lose all its sting. The woman clown is the latest addition to the circus.

Mrs. Frances la Pearl of Freeport, Ill., who recently married a circus clown, wished to follow her husband on the road and so she qualified for a "lady clown" and is now performing the part to the satisfaction of every- body.

## A Champion Buttermaker.

Miss Ethel Williams is the champion buttermaker of Great Britain. From her childhood she has been noted for

MISS ETHEL WILLIAMS.

her quickness and neatness in this line. She received three money prizes at the recent dairy exhibit in London.

Why don't we give prizes in this country to encourage a championship in buttermaking? We have champion ships in almost everything else.

## Walking to Earn a Wager.

Two Oklahoma women, Mrs. Frank T. Seery and Mrs. Charles Smith Jen- kins, are now emulating Weston. They are walking from Muskogee to San Francisco, a distance of 2,500 miles, and earning their own living while on the road by selling pictures and shoe- heel springs.

They are doing this on a wager of \$25,000 without a time limit. The women figure the trip will take about four months. They will wear light suits with leggings and divided skirts. On a belt each will carry a 44 re- volver to defend themselves.

"During the latter part of the trip, when we have to pass over deserts and mountains, we will carry a knapsack and blanket and camp out at night. While in the early part of the trip we will depend upon walking from one town to another or securing food from farmhouses along the way," said Mrs. Seery before she started.

# Shipment of Short Kimonos

We have this week received a shipment of short Kimonos and dressing saques, made of fine batiste, dotted swiss and lawn—The selections contain some mighty pretty styles and patterns and the values are exceptionally good and are selling fast; range of prices, 65c, 50c, 29c, 25c, 19c and ----- 15c

## WOODARD FAMILY REUNION

Took Place on Cedar Lake, Near Tucker—Happy Affair.

Tucker, Texas, July 1.—It has been quite a period of time since I have taken the pleasure of begging for a small space in your dear paper, which we all enjoy reading at the end of the week after we have given Mr. Crab Grass a faithful fight; then we can sit in the shade of the weeds in the fence corners and enjoy the contents of the Herald.

Health in this part of the vicinity is extremely good, and every one seems to be of good spirits, as there seems to be good prospects if the pesky little boll weevil does not interfere. A good rain in this part of Anderson county would be of great benefit, al- though cotton is not suffering, but corn will be one-third short unless we are visited by a good rain soon.

A family reunion was the pleasure of Mr. and Mrs. H. A. Woodard's fam- ily last week, which was spent en- tirely upon Cedar Lake. The crowd was composed of Mr. Jesse R. Cham- bers and family of Fort Worth, Miss Jessie Mitchell of Fort Worth, Miss Ida Stubblefield of Elkhart, M. L. and J. W. Woodard, both of San Antonio, Mr. and Mrs. H. A. Woodard and six other sons, including the writer and Dr. D. R. Rucker of Palestine, and our faithful old cook, Aunt Martha. It was quite an interesting reunion, when H. A., the father of ten boys, eight of whom are living, M. L., the father of one, J. W., the father of two, making the total of thirteen boys and not a single girl is to be found in all this bunch. We all proceeded on the march toward the lake Wed- nesday and a four days' reunion was enjoyed there, as well as the mos- quitoes and sand flies enjoyed our presence. There was not much luck catching fish, but good old country hams and yellow legged chickens are not a bit bad after about three or four hours' fishing in the sun. After sup- per there was spent an hour or so telling of days when us boys were at home with pa. Then music was fur- nished by John and the writer out on the lake. Some good singing was en- joyed by Miss Jessie Mitchell, Miss Ida Stubblefield and Dr. D. R. Rucker. Every time Mecon would get tickled, which was very often, he would have to go lift the wagon to console him- self. Sometimes he would get so happy he would make a fuss like a wild cat, but when the writer would say, "I believe I'll shoot," he would come alive and shout aloud, "Oh boys." It is useless to say how much every one present enjoyed themselves, as it was the first reunion in two years. The crowd finally began to disappear, Mecon leaving Monday, J. R. Cham- bers Tuesday, and John Wednesday. May God be with us and bless us all until we shall have the pleasure of another family reunion at our dear old "Home, Sweet Home."

With best wishes to the editors and Herald readers, I am,  
Yours truly,  
"Dib."
